

- 1、浏览器打开 <https://github.com/BtbN/FFmpeg-Builds/releases>
- 2、下载二进制版本的压缩包

The screenshot shows the GitHub repository page for BtbN/FFmpeg-Builds. The page is titled "Latest Auto-Build (2026-09-03 13:17)" and is marked as "Latest". It shows the repository has 1.5k forks and 11.6k stars. The "Releases" tab is selected, and a search bar "Find a release" is present. On the left, a "Release list" shows a series of "Auto-Build" releases. The main content area shows the "FFmpeg Builds" section, which is grouped by OS, version, and variant. Under "Windows (x86_64)", the "master" branch is selected, and the "9.0" version is shown. A table lists the available builds:

Variant	File	Size
GPL, static	ffmpeg-n9.0-latest-win64-gpl-9.0.zip	161.4MiB
GPL, shared	ffmpeg-n9.0-latest-win64-gpl-shared-9.0.zip	72.9MiB
LGPL, static	ffmpeg-n9.0-latest-win64-lgpl-9.0.zip	140.2MiB
LGPL, shared	ffmpeg-n9.0-latest-win64-lgpl-shared-9.0.zip	64.1MiB

Navigation links for "Previous" and "Next" releases are also visible.

- 3、将压缩包解压到 D:\tools\下

The screenshot shows a Windows File Explorer window with the address bar set to "D:\tools\ffmpeg-n9.0-latest-win64-gpl-9.0". The left sidebar shows the "主文件夹" (Main folders) section with "桌面" (Desktop), "下载" (Downloads), "文档" (Documents), and "图片" (Pictures). The main pane displays the contents of the folder:

名称	修改日期	类型	大小
bin	2026/9/4 10:45	文件夹	
doc	2026/9/4 10:45	文件夹	
presets	2026/9/4 10:45	文件夹	
LICENSE.txt	2026/9/3 21:03	TXT 文件	35 KB
